OFFICER ADMINISTERING THE GOVERNMENT TO SECRETARY OF STATE. Government House. Hongkong, 10th August, 1891. My Lord,-I have the honour to report as follows on your Lordship's despatch No. 39 of the 27th of February.

When the Estimates for the current year were prepared, it was contemplated to use only

assistant in the Public Works Department, was also before the Committee and is referred to in their report. That design, however, as far as I can gather, simed more at architectural improvement than increased economy, and the Committee were unable to decide as to the comparative merits of the original and new design. I regard it as fortunate that the Committee did not adopt the resolutions of Mr. T. H. Whitehead, which would have involved a delay of several months in proceeding with the work.

Owing to the fact that the foundations of this building are already completed, and delay in prosecuting the work involves considerable loss. and I am so jestisfied that everything has been done that can be done to economise in the estimate, and so sensible of the great inconvenience and loss that would be caused by further suspending the work (the Surveyor-General estimates the loss to the revenue by each day's delay to be \$100), that in concurrence with the Executive Council I strongly recommend your Lordship to sanction it being procooded with, and I would arge that such sanction should be conveyed by telegraph that I may without delay accept the tender which has been approved, and order work to be resumed.

8.—As regards the Hospital staff quarters after careful consideration and consultation with the Medical Authorities I am of opinion that the quarters are by no means too large, and give barely the accommodation required for the staff, leaving little for any extra demand in view of future contingencies.

It is true, I think, that the building was designed on a somewhat too extravagant scale as regards its external appearance, but I am satis-As regards the alterations to the hospital, the

It was well known to the Chief Justice himself and I was leaving the Court with his Lordship's con-

He handed 3.-I observe with satisfaction that it has over everything. There was a passage ticket by the Empress of China and also one for the Cross-examined by Mr. Webber-You told me you had a technical objection to the warrant

Defendant-I was locked up. Mr. Dennys-He did not attempt to go away

Witness-No. Defendant-I couldn't very well have gone away. (To witness):-Would you have let me? Witness-No.

Defendant-It only shows your ignorance, Mr. Dennys, to put such a question. You are about as ignorant as they make them, His Worship-What is the objection you wish to lodge P The defendant—The legal definition of per-

I object to the warrant because it does not contain the word " malicious." t does not impute any malice. That is my jection to this warrant. The other proceed ings, so far as I have seen the rost of the pro-

His Worship—Very well; I note your objection. P.C. Green was next called and stated that he went with Inspector Stanton to Elgin Street when the arrest was made. He had been there twice before with Inspector Quincey but could not find the defendant. On one occasion they searched the bouse.

Mr. Dennys asked for a general to instruct Connsel. Defendant-I have another objection to the warrant. It is imporative on the prosecution that matter which will be material to the issue should be set out in the warrant, otherwise have not the means of defending myself. His Worship-You can apply to see the in formation on which the warrant was issued. All that is material is there.

His Worship-Lean't go so far as that. Defendant-Of course your Worship understands that apart from my objection I do not object to being tried on the facts. His Worship adjourned the case till to-day a p.m. He asked Mr. Dennys what he had to

say as regards bail. At present the bail Mr. Dennys said if his Worship thought the security sufficient, he thought the amount was large enough.
